-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2181

1. Claims 1-9 are presented for examination.
2. The drawings are objected to because Figs. 22 and 23 seem to have been discussed by applicants as prior art; yet, they lack labels designating them as prior art. Fig. 3 contains no meaningful labels. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "101" and "201" have both been used to designate the same pointer storage section in Figs. 2, 5(a), and 5(b). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid

abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicants will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 and, as a result, its dependent claims 2-7 recite the limitation "the predetermined change condition" in line 5 of claim 1. There is insufficient antecedent basis for this limitation in claim 1 nor do any of its dependents make clear what constitutes "the predetermined change condition".

6. Claims 8 and 9 recite the limitations "the predetermined change condition" and "the predetermined execution condition" in lines 5 and 11 of both claim 8 and claim 9. There is insufficient antecedent basis for these limitations in the claims.

7. While the examiner is unable to apply prior art at this time because of the indefinite nature of applicants' claims, the following prior art should probably be reviewed before applicants' submit amended claims.

8. Krause et al. (Patent No. 5,815,707) Dynamic Function Replacement for Streams Framework.

Art Unit: 2181

9. Saboff (Patent No. 6,154,878) System and Method for On-Line Replacement of Software.

10. Akgul et al. (US 20030074487 A1) Dynamic Operating System.
